

Self-Storage Association of Michigan (SSAM)

Membership Benefits

Formed in 2007, the Self-Storage Association of Michigan (SSAM) is the only statewide, not-for-profit trade association protecting and advancing the interests of self-storage facility owners and operators. SSAM works to improve the business climate for members and to encourage growth in all areas of the self-storage industry.

Legislative Protection – The Association staff works diligently with legal and legislative counsel to monitor any legislation that affects the self-storage industry and contributes input to assure that industry viewpoints are represented, understood, and protected. Members are kept informed about the status of any legislation that could affect their businesses.

Member Services – The Association staff assists members in responding to technical questions, working with state and local governmental units, and acts as a referral resource to insurance, legal, and other related service-providers.

SSAM's website – View the SSAM website at www.selfstoragemichigan.org where the Association provides members a place to list company details and contact information, including a website link. This is an excellent source of exposure for SSAM member businesses.

Industry Insights – SSAM's newsletter provides timely industry updates ranging from legal and legislative issues, announcements of upcoming education programming, and money-saving business ideas from the Association office.

National Affiliation – SSAM is an affiliate of the national Self Storage Association (SSA). SSAM members are entitled to several national benefits through this affiliation, including an annual subscription to the SSA Globe magazine, member discounts and affinity programs, benefit packages, and online tools.

Government Relations – SSAM's role in government affairs does not end with its influence in the Legislature. The Association recognizes the important of understanding and working with the myriad of agencies and departments that create and implement laws and regulations. For that reason, the Association functions as a liaison between members (as a business) and the bureaucracy which regulates the industry. SSAM represents member interests at the regional and national levels as members of the national Self Storage Association (SSA) Board and by contributing input to federal agencies.

SSAM Marketing and Public Relations Campaign – The Association keeps consumers, government officials, trade publications, and media sources throughout the state informed by releasing a steady-flow of information about the vital contributions the self-storage industry makes to Michigan's economy.

HARVEST Education Foundation – Provides scholarships for members, their families, and employees. Since 1991, more than \$383,000 in university and college scholarships have been award to more than 650 students.
